 - By Law changes require membership review and approval by a majority of those present.
- General Meeting Items:
 - Treasurers Report
 - Committee Reports
 - Old Business
 - New Business

A message to all members from Club President, Dave Conway:

Established in 1934, Brown County Sportsmen's Club is a member owned non-profit organization.

As all of you know, our hours of operation include open shooting on weekday mornings and weekends. With this in mind, understand that we are one of the few clubs in NE Wisconsin offering this shooting opportunity at a great value to our members.

BCSC strives to keep member shooting prices maintained at a very affordable price. These price levels are primarily due to members volunteering to manage the clubhouse, grounds and machinery at no compensation. Volunteers save the club money and keep our costs manageable - allowing us to pass the savings on to the general members.

As recently as 2014, the club's financial health was in question. Today, with the help of non-compensated volunteers we are on the way back to fiscal stability.

The club's current membership is in excess of 300 individuals, yet it seems the same 20 or 25 individuals do the majority of the volunteering. The efforts of the minority provide the benefit to the majority.

Preservation of the low cost prices and ultimately the future of the club depend on our members taking an active role in various club functions. Your next opportunity to help make this happen is September 23rd, our fall clean-up day. Please come out, help us get the grounds in shape for winter and take ownership in your club.

Thank you -
