

Brown County Sportsmen's Club

Operating Requirements During COVID-19 Pandemic

First and foremost, if you are sick, have symptoms of coronavirus, have been exposed to someone who has been diagnosed with or has symptoms of coronavirus, or have recently traveled to/from a high-risk location, or have any concerns for your personal health status, please shelter at home and DO NOT COME TO BCSC until your status has been verified to avoid further spread or putting anyone at risk.

- Additionally, we ask that you maintain social distancing of at least six (6) feet from any person with whom you are not related and with whom you have not already had contact during the shelter-in-place order.
- You are responsible to provide your own PPE, such as gloves and disinfectants, you may deem necessary.
- Public shooting will be restricted to those with experience. There will be no first-time shooting or BCSC instruction provided.
- All shooters must pick up their own hulls.
- BCSC will not provide clipboards, pencils, or scorecards for recreational shooting at this time.
- BCSC will not provide water jugs on any courses or fields at this time. Participants will need to provide their own or purchase non-alcoholic beverages while shooting.
- Restroom facilities will be available in the Club House. Occupancy of restrooms will be limited to two (2) at one time and the two must maintain social distancing. Everyone must thoroughly wash their hands after use of the restroom.
- The Club House will be open for the purchase of targets and ammo, as well as water, soda or beer to be consumed outside only.
- Sanitation/wipe down of all controllers/pull heads will be performed on a rotating basis as often as possible based on the participation level. Participants are encouraged to provide additional PPE such as gloves and additional sanitation products.
- Occupancy of the Club House will be limited to four (6) at any one time – face coverings and social distancing will apply as per above.
- All areas of the Club House, including rest rooms, will be cleaned and sanitized on a regular basis. As with shooting areas, members and guests are also encouraged to use additional PPE and sanitation as desired while in the Club House.
