RE: ATA Shoot Hosted on 6-21-2025

As there was a loss of power that occurred during the shoot, some participants were not able to fully compete the event they had started and other events did not have the required number of entries needed. After review of the ATA rules and further discussion with our state ATA delegate, Kevin Doerring, the following has been determined for the correct course of action.

- 1) Shooters completing (2) or (3) full sub-events in the singles events (i.e., 50 targets & 75 targets respectively) will have their scores submitted to the ATA as registered targets out of the 50 or 75 targets respectively shot at. See Section IV, subpart (F) of the ATA rules below that establishes this.**

F. SUB-EVENTS

A sub-event is any number of targets shot on any one field at one time, with one full rotation on all five (5) posts by each shooter, such as 25 or 50 Singles or Handicap targets or 10 pairs, 15 pairs, 25 pairs of Doubles. An event is the total targets of a specific type (16 yard, Handicap, or Doubles) such as 200 16-yard targets, 100 Handicap targets, etc. for which separate entry is made. It is not necessary to change traps after each sub-event. Events of less than 50 targets may not be registered.

12

- 2) Shooters that participated in the doubles event will not have their scores submitted to the ATA. Only (2) participants completed their (100) target event. (3) Contestants are required to establish a registered event. See Section IV, subpart (A), subsection (2c) of the ATA rules below that establishes this. Furthermore, individuals who did not complete their first 50 target sub-event in doubles did not establish the target minimum as noted above per ATA rules, these targets also do not count toward registered target totals.**

2. To constitute a registered shoot the following requirements must be met:
 - a. all contestants must be current or life members of ATA at the time of their entry, and
 - b. each contestant must pay an ATA daily registration fee of \$4.00 for each day of competition at each shooting location (\$2.00 fee for Big 50 events), and such Zone or State Association fees as may be charged, and
 - c. at least three (3) or more contestants must compete in and complete the same event on the same day of competition.

If you have any further questions, please feel free to reach out directly.
